

WET WEATHER POLICY

Nobody likes rain in the cricket season, but it's a reality that one or two training sessions and/or matches will be affected by the weather. Actonians Cricket Club encourages coaches, managers, players and parents to 'get the game on' however, when it is wet or has been raining the focus is on player safety. As much as we all want to get out on the field, **player safety in paramount.**

Training

The Age Group Leads and Coaches are the judges of whether conditions are fit to train. When it is raining or has rained heavily overnight they will visit the club and inspect the ground as soon as possible before the session is scheduled to start. Parents/Carers will be updated through the website and through Age Group Leads WhatsApp groups as to the situation. **Assume training is taking place unless advised otherwise.**

Matches

As much time as possible will be given to get the game on. When the match is away the club is at the mercy of the opposition as to the status of the game. When Actonians are hosting the game we must also be mindful of the opposition travelling. All Age Group Leads/Match Managers will be in contact with their opposite numbers on the day and will update everyone as soon as they can – **assume the game is on unless you hear otherwise.** In all cases player safety is our priority and Age Group Leads WhatsApp groups will be used to let everyone know what the situation is.

All Stars/Dynamos

Sessions are planned for each programme and rest assured all sessions will be delivered. If a session is cancelled due to weather then it will roll over to the next week's session.
